

PECB Certified ISO/IEC 27002 Lead Manager

Master the implementation and management of Information Security Controls based on ISO/IEC 27002

Why should you attend?

ISO/IEC 27002 Lead Manager training enables you to acquire the necessary expertise to support an organization in implementing and managing Information Security controls based on ISO/IEC 27002. During this training course, you will also gain a comprehensive knowledge of the best practices of Information Security Controls and improve Information Security within an organization.

After mastering all the necessary concepts of Information Security Controls, you can sit for the exam and apply for a "PECB Certified ISO/IEC 27002 Lead Manager" credential. By holding a PECB Lead Manager Certificate, you will be able to demonstrate that you have the practical knowledge and professional capabilities to support and lead a team in implementing and managing Information Security Controls based on ISO/IEC 27002.

Who should attend?

- Managers or consultants seeking to implement an Information Security Management System (ISMS) based on ISO/IEC 27001 and ISO/IEC 27002
- Project managers or consultants seeking to master the Information Security Management System implementation process
- Individuals responsible for the Information Security, compliance, risk, and governance in an organization
- Information Security team members
- Expert advisors in information technology
