ISO 13485
MEDICAL DEVICES MANAGEMENT SYSTEMS CERTIFICATION

INTI.Q SOLUTIONS

ISO 13485 specifies requirements for a quality management system where an organization needs to demonstrate its ability to provide Medical Devices and related services that consistently meet customer requirements and regulatory requirements applicable to medical devices and related services.

Organizations involved in medical device industry see ISO 13485 as the de facto standard towards regulatory compliance.

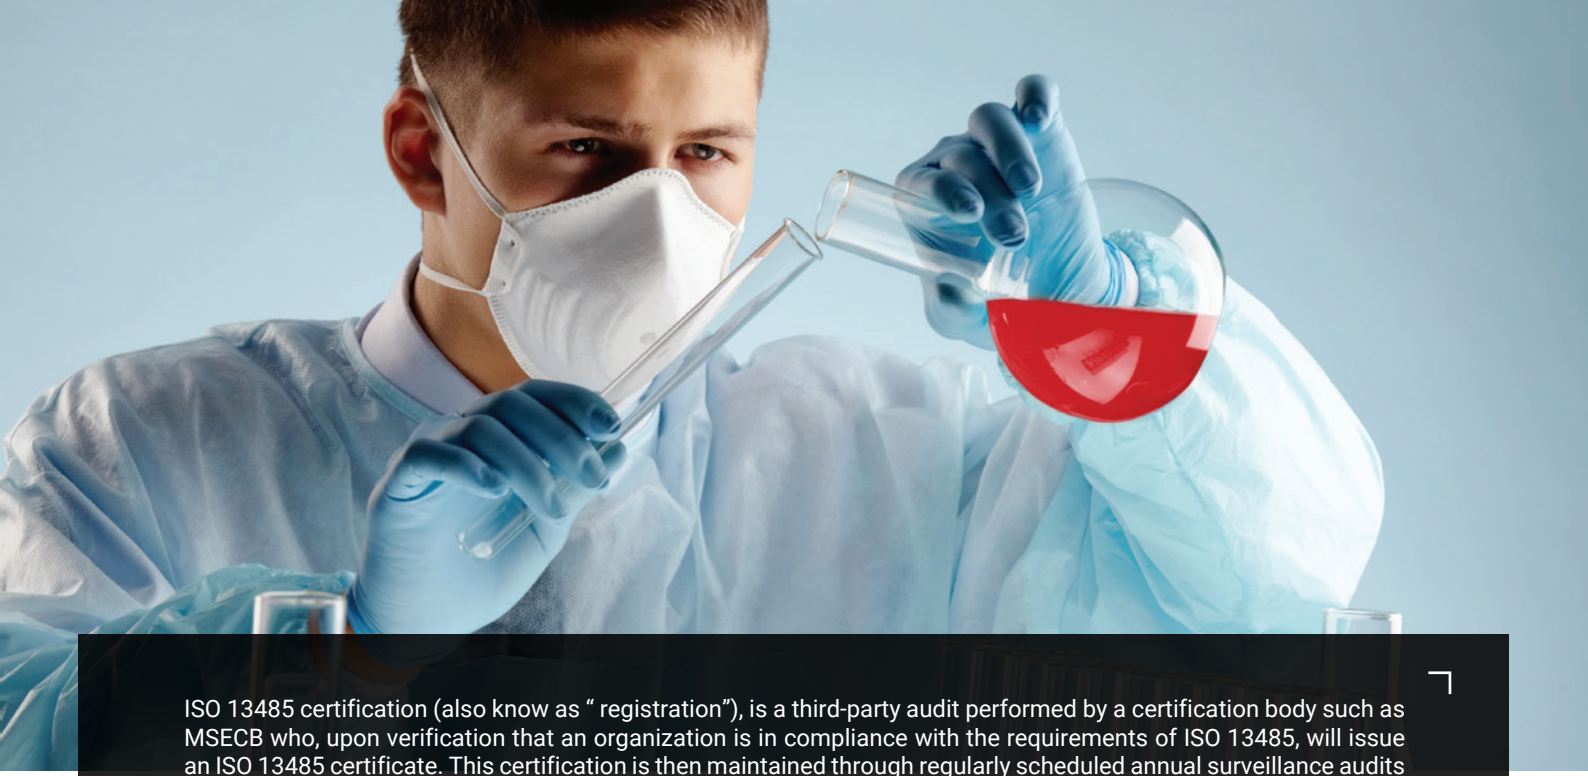
MSECB



ISO 13485 certification (also know as " registration"), is a third-party audit performed by a certification body such as MSECB who, upon verification that an organization is in compliance with the requirements of ISO 13485, will issue an ISO 13485 certificate. This certification is then maintained through regularly scheduled annual surveillance audits by the registrar, with re-certification of the Medical Devices Quality Management System performed on a triennial basis.

Benefits of implementing ISO 13485 Management System in your organization:

- Global Recognition
- Improved legal and regulatory or contractual requirements compliance
- ISO 13485 Medical Devices Quality Management System (QMS) is very close to the Food and Drug Administration's (FDA) QSR standards
- Assistance in monitoring supply chain effectiveness
- Increased profit margins
- Improved product safety
- Increased Efficiency
- Proactive error detection and prevention
- Cost Savings
- More Effective Risk Management
- Increased likelihood of meeting Customer Requirements
- More Effective Risk Management
- Increased likelihood of meeting Customer Requirements

Benefits of ISO 13485 Certification to your customers:

- Quality ensured medical devices
- Safe and effective medical devices
- Lower skepticism and increased confidence for end-customer
- Boost of loyal customers and potential customers
- Increased profit margins
