

Overcome challenges and issues while planning events with ISO 20121.

ISO 20121, known as Event Sustainability Management, can be adapted to events of all sizes and types. The ISO 20121 certification will prove that your company is operating effectively and puts sustainability first when managing and delivering your events. Once certified with ISO 20121, it will give your organization a reputation for responsible delivery of events and differentiate you in the marketplace.

ISO 20121 certification (also known as “registration”), is a third-party audit performed by a certification body such as MSEC who, upon verification that an organization is in compliance with the requirements of ISO 20121, will issue an ISO 20121 certificate. This certification is then maintained through regularly scheduled annual surveillance audits by the registrar, with re-certification of the medical Event Sustainability Management System performed on a triennial basis.
