

ISO 45001 certification is a professional certification that boost organization's reputation by demonstrating that they hold a certified Occupational Health and Safety Management System. An effective Occupational Health and Safety Management System promotes a safe and healthy working environment, by providing a framework that allows your organization to identify and control its OHSMS, and improve the overall performance.

Implementing the ISO 45001 with the world's known independent third party such as PECB MS can help your company demonstrate commitment in maintaining an effective Occupational Health and Safety Management Systems.

ISO 45001 certification (also known as “registration”), is a third-party audit performed by a certification body such as MSEC B who, upon verification that an organization is in compliance with the requirements of ISO 45001, will issue an ISO 45001 certificate. This certification is then maintained through regularly scheduled annual surveillance audits by the registrar, with the re-certification performed on a triennial basis.
