

The ISO 55001 standard guides businesses to control and manage the life-cycle of an asset. Depending on the type of the asset, the life-cycle of assets goes throughout different stages such as acquisition, construction, operation, and maintenance.

Hence, ISO 55001 can be applied to all sizes or businesses and all types of assets.

Organizations that have adopted ISO 55001 encountered huge benefits after its implementation. The standard will help towards the boost of organization's efficiency and effectiveness of the system and most importantly reach objectives by focusingon risk and cost
